DATA, INSIGHT AND ANALYTICS

ADLIB

Certified

Corporation

WHAT IS THE AVERAGE DATA, INSIGHT AND ANALYTICS SALARY?

We've outlined the average salaries and day rates typically received for Data, Insight and Analytics roles.

How do we benchmark salaries and rates?

The following is based on information collated through working in this industry day in, day out, client briefs taken and placements made by ADLIB in UK.

We stress the importance of context when making salary comparisons based on job title. In many cases, there is a significant variance between the bottom end and top end of salaries paid.

What to consider when assigning a salary to a role

It's important here to consider that businesses come in all shapes and sizes and that there are several factors that can influence one's salary, for example size of business and team, the Location, the size of account(s) or projects you may be working on, management responsibilities, the industry and specific skill sets.

All of which have an impact.

Experience in position						
Permanent Roles	Location	1-2 years	3-5 years	5-8 years	8-10 years	10+ years
